

For the past 18 years, Pure Water, Inc. has made every effort to provide you with top of the line service. Your water is important to you. Help us help you take care of it. 95% of all service calls result from the lack of ongoing maintenance performed on your water well pumping system or filtration system. Pure water, Inc. offers service maintenance agreements to prevent costly equipment repair in the future. Choosing the right option is as easy as 1,2,3!

STANDARD SERVICE

AGREEMENT: \$179.00 per yr.

1

Pure water will schedule every 6 months to survey all aspects of your water well pumping system and filtration system. This service will add years to your pump life and filtration system.

- Make sure proper pressure is added to your bladder tank.
- Adjust pressure switch to proper cut – in / cut – out position.
- Recommend replacement of corroded pipe, pressure gauges, check valves, water faucets, etc.
- Check wiring, filter time clocks and proper electrical current.
- Flush retention or blending tank.

Water Well Pumping Equipment

QUARTERLY SERVICE

AGREEMENT: \$399.00 per yr.

Service will be scheduled once a quarter to include all standard services and more

- 400 Pounds of water softening salt delivered to your door.
 - Clean water softener injectors.
 - Flush water softener with iron deposit cleaner.
- 2**
- Check chemical levels and recommend filter media changes (carbon / calcite / sand).
 - Take water sample to determine changes in water chemistry.

Complete Filtration & Purification Systems Designed and packaged for your specific water problems.

MONTHLY SERVICE

AGREEMENT: \$1299.00 per yr.

Service will be scheduled each month for your total maintenance program. You will never have to travel to your well house again or worry if your pumping or filtration system is operating properly. All services listed in the standard and quarterly agreement will be included as a part of your monthly service agreement.

3

Added Bonus

For monthly service agreement customers

- 1 year supply of water softening salt delivered to your well house as needed.

5 Stage Under Sink Reverse Osmosis Drinking Water System.
